WALDORF'S GOOD WORK

A very enthusiastic audience greeted the Janet Waldorf Company last evening. A better performance has not been given in this city, being complete in every particular. What was most gratifying to those present was the careful attention to the small detail work. The aside work was well carried out and taking into consideration the small stage, the staging of Nell of Old Drury was nearly perfect. Miss Waldorf and Mr. McGregor were at their best. Their lines gave them ample room to display their talent to the utmost, and they certainly took advantage of their opportunity.

The scene between Nell Gwynne and Lady Castlemaine in Nell's boudoir was superb and the climax was well worked out. Mr. McGregor's work as the King could not be improved on, and in the first part of the last scene was perfect.

The company worked very well together and in some of the finales showed up very well. The applause was continuous, often interrupting the progress of the play, and by the many encores the audience showed its appreciation.

Tonight Miss Waldorf will display to the fullest extent her ability as an exponent of pathos in Duma's great tragedy "Camille." In this part she has challenged comparison with many prominent actresses and has been met with the most favorable criticism. The piece has been described as the best in Miss Waldorf's varied and extensive repertoire. Seats are on sale at the Orpheum.

WAIALAE ROAD BIDS

Bids for the concrete arch and filling on the Waialae road in accordance with the appropriation recently approved by both of the houses of the Legislature, were opened at noon yesterday in the office of the Superintendent of Public Works. They were as follows:

John Walker, \$2438 for concrete arch.
Hawaiian Stock Yards Co., \$1775 for concrete arch and \$5,811.25 for labor and material for filling. (No Asiatic labor to be employed.)

Lord & Beiser, \$1297 for concrete arch and \$6.58 per cubic yard for all that portion below the bed of the stream, amounting in all to about \$1900 for the concrete arch; \$3489 for labor, material and filling. If the government allows them to use the filling from the government road at Waialae, they will reduce the amount \$1600, leaving the bid at \$3889. (Citizen labor.)
J. W. Bowler, \$5550 for that portion of the arch from the spring up and 60 cents per cubic foot for everything below the spring.

W. E. Rowell, \$3139 for concrete arch and \$8527 for labor, material and filling.

C. B. Dwight, \$8500 for entire job.

KOREA LOST ANCHOR

On the last trip of the big liner Korea to this port, it was learned that she had quite an accident while in the Inland Sea. It appears that on leaving one of the ports of Japan and making out into deep water, the captain shouted from the bridge to make fast the anchor, which had just been hoisted. The man at the anchor mistook the command and did just the opposite thing. The heavy piece of iron descended with lightning rapidity, carrying with it the greater part of the chain. There was a jolt and jar and the chain snapped in two, allowing the anchor to go clear to the bottom.

The Korea could not wait to pick up the anchor and continued on her trip. A wrecking company went out from Kobe, picked up the anchor and when the Korea returned to that port on her way to Honolulu, she found the anchor awaiting her. It cost a pretty little sum to reward the wrecking company for their work but it was paid and when the Korea arrived in port she had both her anchors in place. However, if one were to have taken a look at the anchor which was dropped in the Inland Sea, he would have found marks indicating pretty rough usage.

Important Reasons WHY HERRING-HALL-MARVIN SAFE CO.'S SAFES AND LOCKS ARE THE BEST

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent BOLT-WORK is superior to any in use, and does not require constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for County Treasurers, County Recorders, County Clerks, Jewelers, Hotels, Residences, Churches and Corporations. We have a Large Assortment of Safes on hand and will be pleased to show same.
